Rajeesh Nittoor

UI/UX Designer | UX & Product Designer | Digital Products & Complex B2B Platforms

+31 630 245 081 | rajeeshnittoor@gmail.com | www.rajeeshnittoor.nl | Amsterdam, Netherlands

SUMMARY

UX & Product Designer with 7+ years of experience across digital products, complex B2B platforms and enterprise environments. Strong hands-on capability across UI and UX design, from research, stakeholder discovery and journey mapping through user flows, interaction design, wireframing, high-fidelity prototyping, usability testing and developer handoff. Experienced in simplifying complex operational workflows and data-rich interfaces into intuitive experiences, while building scalable design systems and reusable components. Comfortable facilitating workshops and design reviews with senior stakeholders, product teams, engineers and data specialists.

AREAS OF EXPERTISE

UI & Interaction Design
UX & Product Design
Enterprise / B2B Platforms
User Flows & Information Architecture
Wireframing & High-Fidelity Prototyping
Design Systems & Component Libraries
User Research & Interviews
Usability Testing
Customer Journey Mapping
Workshop & Design Session Facilitation
Responsive & Accessible Design
Data Visualisation & Dashboard Design
Stakeholder Management
Cross-Functional Collaboration
Developer Handoff

WORK EXPERIENCE

Founder & UX Designer - Nittoor Freelance Design — Jul 2022 - Present
Amsterdam, Netherlands

UX & Product Designer - Marketing Activation - IKEA Ingka Digital — Feb 2025 - Dec 2025
Amsterdam, Netherlands

- Designed reusable dashboard experiences and developed a tool-agnostic Data Visualization Guideline aligned with IKEA's SKAPA Design System, improving consistency across Marketing Activation products.
- Collaborated with Product Managers, Engineers, Data Analysts and stakeholders to define requirements and translate business goals into scalable UX and UI solutions.
- Produced user flows, wireframes, interaction designs and high-fidelity prototypes using Figma, with developer-ready specifications.
- Used stakeholder interviews, workshops and data analysis to understand user behaviour and inform design decisions.
- Facilitated collaborative workshops focused on dashboard usability, KPI communication and decision-making.

- Ensured accessibility, design-system compliance and consistency across reusable interface patterns.
- Led service-design activities by mapping SEO specialists' journeys across five countries, identifying pain points and opportunities for process improvement.

Other projects (freelance):
- Usability testing and UX recommendations for a Dutch HR and payroll platform.
- Concept design for a POS system (MYW) and a booking website for two tourism companies.

UX Designer - Airbus
Nov 2021 - Jun 2022

Bangalore, India

- Collaborated with the Airbus Strategic Design team on an enterprise aircraft-management platform supporting aircraft recovery and transition.
- Conducted contextual research, stakeholder interviews and persona development to understand complex operational workflows and user needs.
- Created journey maps, user flows, wireframes and interactive prototypes to communicate and validate concepts with stakeholders.
- Synthesised research findings into actionable design recommendations that informed product strategy.
- Worked closely with product teams through iterative design reviews and continuous stakeholder feedback, contributing from discovery through concept validation.

Architect & Designer - JCJR Design Community
Jul 2016 - Oct 2017

Kerala, India

- Helped transition from traditional architectural practices to a digital system, simplified workflows, contributed to rebranding, redesigned drawing templates, and created presentations for pitching high-rise projects.

BIM Architect - Cosmere Technologies
Jun 2014 - Jul 2016

India & Dubai

- Enhanced creative output for a BIM startup, designed wayfinding for Dubai Airport, created furniture designs, developed 3D models, and contributed to the startup's establishment.

Junior Architect - Forms & Spaces
Oct 2012 - May 2014

Kerala, India

- Led design and execution of residential and commercial projects across Kerala, India.

SKILLSET

Product Design & UX
UI & Interaction Design | Customer-Centric UX & Product Design | Information Architecture | User Flows | Wireframing & Prototyping | High-Fidelity Prototyping | Design Systems | Component-Based Design | Usability Testing | Accessibility | Responsive Design

Research & Discovery
User Interviews | Contextual Inquiry | Field Research | Surveys | Task Analysis | Journey Mapping | Insight Synthesis | User Scenarios

Design & Collaboration Tools
Figma | FigJam | Miro | Power BI | Tableau | Flourish | QGIS | Excel

Data & Product Insights
Data Visualisation | Dashboard Design | KPI Visualisation | Data-Informed Design Decisions | Insight Communication

Ways of Working
Agile Product Development | Cross-Functional Collaboration | Workshop Facilitation | Design Reviews | Developer Handoff

AI-Assisted Design
ChatGPT | Claude | Figma Make | AI-Assisted UX Ideation & Prototyping

EDUCATION

Master's in Design - NID Bangalore 2019 - 2022
Bangalore, India

Bachelor in Architecture - TKM College of Engineering 2007 - 2012
Kerala, India

RECOGNITION

Recognised in global Grad Show Covid-19 Design Challenge, Dubai.
